

How to Complete a Tee Time Request by Paper Slip

Get a request form from the proshop. Start by filling in the date of play, then, the time you are requesting, and whether you are requesting 9 holes. At the bottom of the slip you will fill in the recreation card numbers of those members playing with you. (Up to 5 for regulation courses and 4 for executive courses). If you have a guest, fill in the word "Guest" in the fields you would have entered the rec card number and fill in the name as you have for other members.

Before you complete the sections as shown here:

- Course Preference (mark 1st, 2nd & 3rd choices)
- Schedule my group on any of the 7 courses? ____ (Y or N)

- Search Priority: Time Course
- (If you make no selection, lottery defaults to time.)

Please review the examples below as a guide in how to make the correct choice. Then, complete the form and drop in the correct Day "Box" at any of our seven courses.

Example One — This golfer prefers to play on Pebblebrook as close to 9 am as possible. However, if he/she cannot get 9am at Pebblebrook he/she would prefer to take a different time but stay on Pebblebrook.

- Select 9am or LATER.
- Select Pebblebrook as the first course selected and then select two other courses as alternatives.
- Select Course as the preference.
- Select No to the question of "Schedule my group..." through all courses.

Example Two — This golfer prefers to play on Pebblebrook as close to 9 am as possible. However, if he/she cannot get 9am at Pebblebrook he/she would prefer to take a different course but stay as close to 9am as possible.

- Select 9am or LATER.
- Select Pebblebrook as the first course selected and then select two other courses as alternatives.
- Select Time as the preference.
- Select yes to the question of "Schedule my group..." through all courses.

Example Three — A group of 16 golfers prefers to play on Pebblebrook as close to 9 am as possible. They all want to play the same course as close to each other's time a possible.

- Select 9am or LATER.
- Select Pebblebrook as the first course selected and then select two other courses as alternatives.
- Select Course as the preference.
- Select No to the question of "Schedule my group..." through all courses.
- In the summer this will almost always work. In the winter they might get split apart either in time or course.

Example Four — A golfer just wants to get out on the golf course sometime after 10 am.

- Select 10 am or LATER.
- Select Pebblebrook as the first course selected and then select two other courses as alternatives.
- Select Course as the preference.
- Select yes to the question of "Schedule my group..." through all courses.
- This gives the golfer the greatest likelihood of getting a tee time some time after 10 am on some course, with course 1, 2 and 3 being the first possibility and then the remaining 4 courses after that. This golfer will likely get out whether it is winter or summer.

Example Five — This golfer would really like to play at Pebblebrook at exactly 6:30 am.

- He/she has selected 6:30 am or earlier.
- He/she has selected Pebblebrook as courses 1, 2 and 3.
- He/she has elected to not allow the lottery to "Schedule my group..." through the other courses

This golfer will almost certainly NOT get a tee time in the winter or the summer. The selection has been narrowed to only ONE possible tee time (since 6:30 is the first time of the day). Unless this golfer is one of the first selected in the random draw, he/she will be bumped off the tee sheet.

SUN CITY WEST – TEE TIME REQUEST

I wish to play _____ / _____
 (day) (date)

Time Preference _____ Earlier Later

I wish to play only 9 holes

Course Preference (mark 1st, 2nd & 3rd choices)
